

RSC IPCG Past events

Science of Chocolate

Steve Wilson (Sellafield) gave an interactive presentation on the Science of Chocolate at the University of Central Lancashire. The event was a great success, with highly positive feedback from the 40 – 50 students, staff and members of the public. The free samples were a particular hit!

MIRA visit

The IPCG sponsored a half day event at the Motoring Institute Research Association, where attendees enjoyed a seminar entitled The Physical Chemistry of Fuel Cells. This was followed by a guided tour of the MIRA Facilities and Technology Park.

Spectroscopy Summer School

The IPCG contributed towards funding for the Spectroscopy Summer School held at Lake Windermere in July 2015. The event took place over several days and covered grounding in the fundamentals of spectroscopy to the most recent and novel applications. The teaching was done by world leading experts using spectroscopy in a wide variety of fields. The event will take place again in July 2016.
