

Member Networks Annual Report Form

Reporting events held in 2018 and those planned for 2019

In line with the rules for member networks and to enable us to better support our networks and their activities all member networks (Local Sections, Interest Groups and Analytical Division Regions) are asked to complete this form and return it to networks@rsc.org or by post to: Networks Team, Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, CB4 0WF.

Deadlines

Deadline for receipt of Financial Accounts by RSC Finance Team: **8th February 2019**
 Deadline for receipt of Annual Report by Networks Team: **25th February 2019**

If there is any reason that your committee will **not** be able to meet either or both of these deadlines please inform networks@rsc.org as soon as possible.

This report will be uploaded to your web page to share with the members of your network. Staff will also share a digest of all member networks activities taken solely from these annual reports with appropriate staff and governance boards and committees including Division Councils with similar interests.

If you wish to include more detailed information about any particularly successful events or advice to share please do so in the provided space. Please append electronic copies of any meeting reports, newsletters or relevant materials to this report.

For additional events please copy and paste the table and continue as necessary.

Event Name	ChemSource 2018 – Enhanced Performance Using Additives
Event Type	Scientific Meeting - Multi-day
Audience	Industrialists
Start Date	20 June 2018
End Date	21 June 2018
No. Attendees	50-100
Comments	<p>Chemsource 2018 was a 2 day symposium held in Cologne on 20 and 21 June 2018 in Cologne on the theme of Enhanced Performance Using Additives in conjunction with the ChemSpec Europe exhibition organised by Mack Brooks.</p> <p>The symposium went very well and attracted a lot of attendees to hear the full programme of 13 lectures on Additives (attached) which can be viewed and downloaded from</p>

	<p>https://www.chemspeceurope.com/2019/english/conferences/rsc-symposium-archive-2018/ . The presentations themselves were wonderful with Graphene, the Fire retardancy presentations, and the first presentation at Chemsourc from a Chinese company attracting very large audiences to the purpose built 75 seater lecture theatre on the exhibition floor. The organisation ran without a hitch apart from the IT at the beginning of Day 2 but our dedicated technician managed to sort that in 15 minutes. The feedback forms were very complementary about the symposium. All costs plus a Chemsourc franchise fee were recovered from Mack Brooks, the organiser of ChemSpec Europe.</p>

Diversity & Inclusion

Please ensure this section is completed

Our trustees are aiming to embed diversity and inclusion in all of our activities and networks. Section 8 of our [online network handbook](#) contains more information to support our networks in achieving this and our Diversity team have [online Guides for Networks](#) that include actions and considerations for committees, and guides for inclusive communications and running inclusive events.

Please comment on how your group is showing that it has embraced Diversity and Inclusion within its practices. If you have diversity data from your events or activities, please include this information above.

The committee membership does not reflect the diversity in the UK and recruiting committee members continues to be a problem. We do however actively promote diversity through the educational grants. Applications are open to all and priority is given to school in less advantaged areas (as measured by the percentage of students who qualify for free school meals). We are in the process of reaching out to organisations who promote and encourage women to become involved in STEM subjects.
